

TECHNOLOXIA

2018

Sponsorship Deck

What's Technoloxia?

Technoloxia is the best kind of a developer's fest, meant for and organized entirely by high-school students.

To be held from 29th June to 1st July, 2018, at DAV Public School, Chandrashekharpur, here each day will be based on some up-and-coming and some well-established "themes" in the world of Computer Science and Technology, around which will be organized multiple workshops, competitions and other such events ranging from 1-4 hours in duration.

Technoloxia aspires to create an environment which promotes creativity and innovation. We also hope to increase awareness about computer science and technology in our city and give students an opportunity to learn and get involved, no matter their level of expertise.

Why should you sponsor us?

Technoloxia is the first event of its kind in Bhubaneswar, Odisha, India. With applications expected from 600+ students across Odisha and Bhubaneswar, one of the fastest growing hubs for computer science and technology in India, it provides an unique opportunity for you to advertise your products.

The funds will go towards food, workshops, speakers and other related costs. By doing this, not only will you be empowering the next generation of programmers and technologists, but you will also get an excellent chance to reach out to hundreds of tommorrow's top developers and maybe some of today.

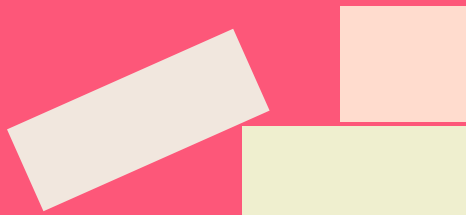

We look forward to your collaboration.

Sponsorship Packages

If none of the options below seem the right fit for your organization, then do reach out to us and we'd be happy to help you out. We're also up for category-specific sponsorships (hardware, software, etc) - so contact us for more details.
